GE Jenbacher

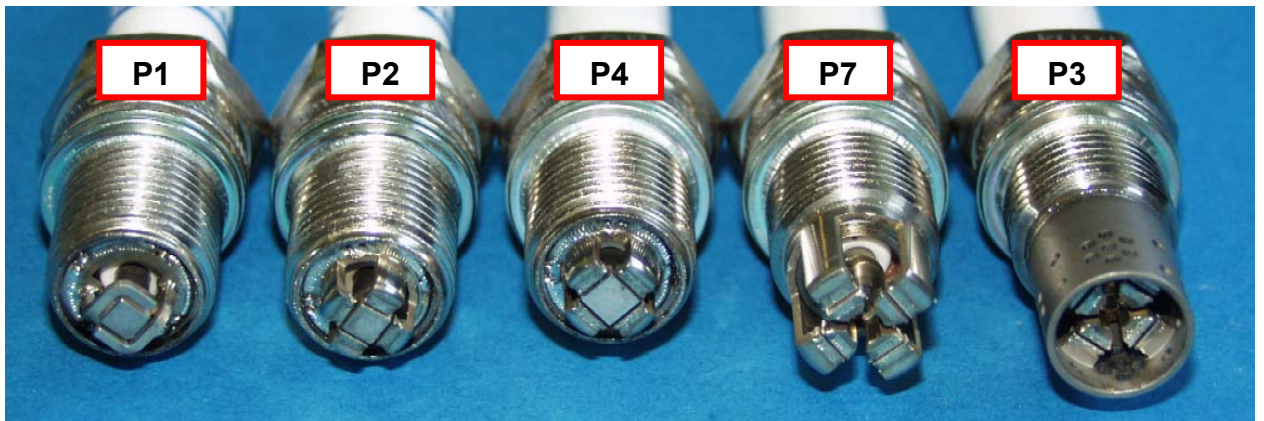

Spark plugs of engine types 2, 3 and 4

For better identification and observation of Jenbacher spark plugs an uniform identification system was introduced. From now plug type and production date are printed on our spark plugs.

In the following please find a list of Jenbacher spark plugs for engine types 2, 3 and 4. Instructions on professional adjustment and maintenance are given in maintenance task IW 0309 M0.

Types	Versions	P/N	Name	Application	Status
1	0	227149	P1	Standard gases	Customer request
2	0	190441	P2	Standard gases	Customer request
3	3	347257	P3.V3	Standard gases	State of the art
3	5	401824	P3.V5	Special gases	State of the art
4	7	314322	P4.77	Standard gases	Customer request
4	8	340051	P4.78	Special gases	Customer request
7	5	351000	P7.1V5	Standard gases	State of the art
7	6	382195	P7.1V6	Special gases	State of the art

Equipment of new systems according to production line 2005:

Spark plug type	Engine type	Nox [mg/Nm ³]	Gas type	P/N
