Recording operational data

Operational data - Thermal Reactor CL.AIR

Inspecting the following components: check the system for tracks on the housing, unnoticed component damage or failures, loose or unattached parts, escape of air, gas or exhaust gases, strange noises.

Date	Component	OK	Remarks (abnormalities)	Preventive measures	Completed Yes/No
Week No.	Gas injection unit				
	Gas lines				
	Air compressor				
	Compressed-air line				
	Cl.Air – cladding				
	Four-way valve				
Week No.	Gas injection unit				
	Gas lines				
	Air compressor				
	Compressed-air line				
	Cl.Air – cladding				
	Four-way valve				
Week No.	Gas injection unit
